

ADUR & WORTHING SUSTAINABILITY FRAMEWORK 2021-2023

A SHARED PLAN BETWEEN COMMUNITIES AND THE COUNCILS

Adur & Worthing Councils are committed to addressing the nature and climate emergency. Because we have greater impact by working together, this plan is shared with our local community and business partners. These are our key action areas as part of our long term vision for a sustainable Adur & Worthing:

SHARED LEADERSHIP

Deepening engagement and capacity for sustainability

CARBON REDUCTION

Radically reducing carbon emissions

ENERGY

Transitioning to clean, secure, affordable energy

WATER

Improving water quality and reducing consumption

ECOLOGY

Enhance, protect & connect green and blue spaces for the benefit of all nature and people

LAND USE & PLANNING

Delivering sustainable land use and planning

CLIMATE RESILIENCE

Improving resilience to a changing climate

FOOD

Developing a fairer, more sustainable food system

TRANSPORT

Shifting to sustainable transport and improving air quality

WASTE

Reducing waste, increasing reuse, recycling and composting

SUSTAINABILITY FRAMEWORK: COUNCIL ACTION

Working together for sustainability, the councils will

SHARED LEADERSHIP

Deepening engagement and capacity for sustainability

COUNCIL ACTION:

DETAIL:

- Enable & empower communities to deliver climate & nature based projects
- Deepen awareness and engagement of SustainableAW
- Work collaboratively to achieve Net Zero for Adur and Worthing by 2045 (UK 100 pledge)
- Provide support with partners around funding, community development, volunteer management & premises. Ongoing
- Embed sustainability into council policies & decision making. Establish champions & learning sessions. Share online magazine widely 2021/22
- Facilitate sustainability sessions for businesses to share best practice, support apprenticeships and green jobs - via AWBP, WACC 2021/22

CARBON REDUCTION

Radically reducing carbon emissions

COUNCIL ACTION:

DETAIL:

- Deliver Carbon Neutral Council by 2030
- Deliver offsetting projects to address residual carbon emissions
- Explore nature-based solutions for Blue Carbon
- Deliver energy efficiency and renewable energy projects that reduce carbon emissions from fleet and buildings. Report annually in Nov.
- Deliver investible renewable energy and/or sequestration projects with partners to offset councils' carbon emissions - 2022/23
- Support research into marine, estuarine & intertidal habitats - with University of Brighton & University of Portsmouth. Lease sea bed for kelp restoration - Crown Estate 2021/22

ENERGY

Transitioning to clean, secure, affordable energy

COUNCIL ACTION:

DETAIL:

- Reduce inequalities ensuring transition to clean energy is affordable and accessible
- Increase solar energy generation across the council and area
- Progress Worthing Heat Network to supply zero carbon heat to the council and town centre
- Widely promote ongoing grants and support to residents to reduce utility bills and environmental impact. WVS Affordable Warmth Pp, BEIS, LEAP
- Deliver the councils' Solar Strategy and support businesses and residents to install solar PV and Thermal. With WSCC, BEIS, GSEEH, iChoosr
- Work to secure funding, procure and deliver a heat network using free heat from the sewer. BEIS, SV, Offtakers Dec 2022

WATER

Improving water quality and reducing consumption

COUNCIL ACTION:

DETAIL:

- Improve council water efficiency
- Obtain and maintain Blue Flag awards for foreshore
- Manage and improve our water courses in line with the Adur & Ouse Catchment objectives
- Conduct detailed review and install water saving measures at council buildings & parks with Water Utilities, Team Energy. 2021/22
- Obtain and maintain Blue Flag awards for the foreshore area with SW, IFCA, EA, Keep Britain Tidy, March 2022
- Work with partners to identify how to improve quality of our water courses. Engage upstream landowners. With EA, SV, OART.

ECOLOGY

Enhance, protect & connect green and blue spaces for the benefit of all nature and people

COUNCIL ACTION:

DETAIL:

- Undertake Natural Capital Project to improve biodiversity of green & blue spaces
- Work with partners to explore opportunities & strategies for a Local Nature Recovery Network
- Increase parks awarded Green Flag status
- Assess ecology of council owned sites, explore opps to improve & extend learning across area. Engage local community. With SxNP, SurreyWT 21/22
- Utilize network of water courses, ponds & green spaces to enhance nature's recovery & better connect people to nature - with SxNP, SWT, OART, SDNPA. 2023
- Invest in ongoing environmental management & infrastructure improvements & develop appropriate strategies to support. Ongoing

WASTE

Reducing waste, increasing reuse, recycling and composting

COUNCIL ACTION:

DETAIL:

- Shift to a Circular Economy approach with a focus on reuse
- Deepen implementation of the Plastic Free Council strategy
- Implement national waste policies locally & ensure Environment Act readiness
- Actively support and enable innovation, enterprise & education pilots/projects via AWC Circular Economy Group. Ongoing
- Embed plastic reduction across the council. Collaborate with partners to promote reuse. 2021-22
- Support a range of recyclables, potential food waste collection, and producer pays systems with WSCC, community. 2021

TRANSPORT

Shifting to sustainable transport and improving air quality

COUNCIL ACTION:

DETAIL:

- Support and enable active travel across Adur & Worthing
- Increase EV Charging infrastructure across Adur and Worthing
- Develop sustainable transport programmes and planning for Adur & Worthing
- Implement improvements from LCWIP - WSCC, DfT 2022. Introduce Bikeshare scheme (50% ebikes) 2023. Implement sustainable Staff Travel Policy 2021.
- Partner with WSCC and installer to install renewably powered, accessible charging infrastructure 2022
- Expand & enhance car clubs, promote car share schemes, support low carbon alternatives. With WSCC, Community Transport Sussex, Hydrogen Sussex Worthing

FOOD

Developing a fairer, more sustainable food system

COUNCIL ACTION:

DETAIL:

- Take a strategic, place-based approach to food
- Develop a network of community food projects
- Support a thriving local food economy
- Work in partnership with the local community to develop a Food Partnership which has a shared vision and strategy - with Community Works, 2021/2
- Map & promote places for growing, foraging, cooking, volunteering & connection around food. Identify support & enhancements needed. 2021/22 - with Green Tides
- Champion local people who grow, fish, cook & sell ethical sustainable healthy food, provide routes to market, premises, planning & business support. Ongoing

CLIMATE RESILIENCE

Improving resilience to a changing climate

COUNCIL ACTION:

DETAIL:

- Deliver nature-based solutions to improve climate resilience, biodiversity & wellbeing
- Strengthen council management plans around flood risk and a changing climate
- Champion best practice of highly sustainable developments that are fit for the future
- Work in partnership to restore ecologically important habitats & create more across A&W. Engage wider community. With EA, OART, SWT, SDNPA, NE
- Ensure robust responses in place with EA, WSCC, HE, SRF Dec 2021. Explore adaptation pathways to cope with climate change and rising sea levels 2023
- Explore opportunities to raise awareness & understanding of developments that are climate resilient & promote a healthy & sustainable environment. 2021/22

LAND USE & PLANNING

Delivering sustainable land use and planning

COUNCIL ACTION:

DETAIL:

- Maximise opportunities within Local Plans to address climate change, nature loss & air quality
- Establish Sussex Bay as a destination and new economic opportunity
- Use Developer contributions to help deliver sustainability projects
- Identify sites with partners for climate adaptation, mitigation, BNG, GI, district heat, food growing & carbon capture. Strengthen Sustainability Checklist following adoption of WLP 2022
- Develop partnership project & attract major funding for large scale habitat restoration, natural capital ecosystem services, sustainable fishing & tourism. 2021/22
- Take a strategic and strengthened approach, identifying opportunities for BNG and leveraging CIL & s106 payments - with Developers, SxNP

SUSTAINABILITY FRAMEWORK: COMMUNITY ACTION

Working together for sustainability, communities will

SHARED LEADERSHIP

Deepening engagement and capacity for sustainability

COMMUNITY ACTION:

DETAIL:

- Run sustainability engagement activities to boost awareness
- Build sustainability leadership capacity at every level
- Coordinate climate awareness public engagement campaigns across the area
- Deliver Green Dreams Festival (GD Team), Bees & Seas (Food Pioneers, Creative Waves, Fof Brooklands), Sustainability Week (Shoreham Port) 2021/22
- Explore a Community Education Partnership. Co-produce events & learning networks with schools, community & business. EYE Project 2021/22
- Deliver community-led campaigns - TTW, TTS, Worthing CAN, SECA. Coordinate county-wide campaign, utilising Engagement Hub to deepen impact (WSSC)

CARBON REDUCTION

Radically reducing carbon emissions

COMMUNITY ACTION:

DETAIL:

- Businesses lead the way in carbon reduction to influence others to follow
- Share best practice for staff engagement in carbon reduction
- Reduce overall climate impact from sports
- Leading businesses share carbon reduction plans and best practice to inspire others, Ricardo, World of Books, Shoreham Port 2021/22
- Deepen engagement of Care Without Carbon with all NHS Trusts in area, share learning & resources where possible - Sussex Community NHS Trust, 2022
- Demonstrate measures taken to reduce carbon footprint. Utilise platform to influence & educate supporters/community & fellow clubs - Shoreham FC

ENERGY

Transitioning to clean, secure, affordable energy

COMMUNITY ACTION:

DETAIL:

- Provide support needed to achieve Net Zero for Adur and Worthing by 2045
- Support innovation in clean energy
- Support and accelerate decarbonisation of housing
- Deliver Low Carbon Across South East (LoCASE) energy efficiency grants and support for SME's - Green Growth Platform
- Deliver Moixa battery storage scheme for households (BHESCO, TTW). Explore potential for Community Energy Scheme (Transition Town Shoreham) 2021/22
- Demonstrate energy efficiency measures & retrofitting advice via Eco Open Houses. (TTW) Enhance skills of local builders & installers via Home Decarbonisation Academy - GBMET

WATER

Improving water quality and reducing consumption

COMMUNITY ACTION:

DETAIL:

- Improve water quality of our streams & rivers & community awareness of water issues
- Reduce water wastage through campaigns and infrastructure investment
- Showcase home improvements that create resilience for drought or flooding events
- Celebrate success of EPIC to improve water quality & biodiversity. Open up Broadwater Brook so it's accessible to community - OART & Sompting Estate 2021/22
- Install 100k smart devices by 2025, conduct home visits, incentivise customers to meet 100 litre target - Southern Water
- Run Eco Open Houses & other projects to demonstrate rain gardens, surface water management, rainwater harvesting - TTW & Tarring Flood Group

ECOLOGY

Enhance, protect & connect green and blue spaces for the benefit of all nature and people

COMMUNITY ACTION:

DETAIL:

- Restore a healthy kelp forest ecosystem off the Sussex coast
- Increase awareness of pollinators and extend their habitats
- Engage around the importance of green spaces for nature and wellbeing
- Project manage workstreams, stakeholder & public engagement and research opps to support & deliver kelp restoration - Kelp Restoration Partnership
- Extend Community Road Verges pilot, establish Pollinator Highways WSSC, LPC, HE, AWC, WCAN 21/22. Promote & expand Wildflower Trail (Green Tides) & Bees & Seas (Food Pioneers)
- Run activities to help people connect with nature & learn skills & knowledge. Explore social prescribing. With Green Tides, AWC Rangers

WASTE

Reducing waste, increasing reuse, recycling and composting

COMMUNITY ACTION:

DETAIL:

- Transition towards a circular economy with reuse and repair as a focus
- Deepen engagement and awareness around Plastic Free Adur & Worthing
- Reduce food waste through redistribution and recycling
- Run regular Repair Cafes, educational activities & upcycling workshops. Explore Library of Things. Transition Town Worthing/Shoreham, Over The Moon, Men in Sheds. Ongoing
- Deliver campaigns & events inc beach cleans, promote reuse - with Refill, Plastic Free Worthing, KLL, FoSB, MCS, Southern Water.
- Pilot a community composting scheme (Apron Community Garden). Explore improvements to surplus food redistribution, inc fresh food (Community Works) 2022/23

TRANSPORT

Shifting to sustainable transport and improving air quality

COMMUNITY ACTION:

DETAIL:

- Improve skills, support and access for active travel
- Develop and support new local carbon technologies for transport
- Improve sustainability, accessibility and connectivity of community transport
- Run Bikeability / maintenance sessions & campaigns (WSSC, Sustrans, CYCALL, BikeBoom), refurbish bikes (Durrington Community Cycle Project), promote cycle routes & lobby for improvements (WCAG)
- Establish Hydrogen Sussex as leaders in R&D for hydrogen technology (Ricardo) and production (Shoreham Port) 2021-22
- Deliver partnership projects/pilots for more sustainable & accessible service, helping to reduce social isolation - Community Transport Sussex.

FOOD

Developing a fairer, more sustainable food system

COMMUNITY ACTION:

DETAIL:

- Create a fairer food system, with healthy, ethical and sustainable food for all
- Enable communities to come together to cook, share, connect and learn
- Optimise opportunities for community food growing & bee keeping
- Support establishment of a Food Poverty Alliance; coordinate meetings & working groups - Community Works
- Deliver cooking sessions, test pop up kitchens to provide healthy, affordable food to local communities - Community Kitchen lead partner, Food Pioneers, Apron CG, UK Harvest
- Promote community gardens (Green Tides) & create more inc Southwick Community Orchard (Eastbrook CG), Community Farm & Orchard (Sompting Estate, Sustainable Sussex), Malthouse Meadows Project (Sompting PC, SS)

CLIMATE RESILIENCE

Improving resilience to a changing climate

COMMUNITY ACTION:

DETAIL:

- Identify local areas where natural flood management can occur
- Maximise opportunities for appropriate tree planting
- Create nature-rich and resilient landscapes
- Work with landowners and parish councils to develop risks and opportunities map to aid investment in natural flood defence. OART/EA 2022/23
- Develop projects and attract funding for tree planting schemes - Green Tides, TCV, Brighton Permaculture Trust, Tree Action UK, AWC Rangers
- Develop a marine & land conservation corridor & education programme to boost biodiversity & reconnect local community to coast (Sussex Dolphin Project, Shoreham Port)

LAND USE & PLANNING

Delivering sustainable land use and planning

COMMUNITY ACTION:

DETAIL:

- Protect and promote sites of natural importance
- Improve landscapes and farming practices for the benefit of nature & healthy soils
- Ensure readiness for implementation of the Environment Act
- Raise awareness & enhance local areas of importance, inc Adur Estuary SSSI, Cissbury Ring, Mill Hill LNR, Widewater Lagoon LNR, Shoreham Beach LNR, (SDNPA, FoSB, SDOS, FoLR, RSPB)
- Undertake landscape-scale, farmer-led conservation and regenerative agriculture projects. Engage public to enhance understanding. Sompting Estate, Arun to Adur Farmers Group Cluster
- Prepare & deliver Local Nature Recovery Strategies and guidance of Biodiversity Net Gain & share best practice across LAs - WSSC, SxNP, SWT, SDNPA, NE

List of organisations involved or connected to actions within Sustainable AW 2021-2023

This list will evolve as more partners and projects come on board. If you are not listed and would like to be, please contact chloe.clarke@adur-worthing.gov.uk
More projects and partners will be available on the online map which will be launched shortly after the July Committee and will be available on our website
www.adur-worthing.gov.uk/sustainable-aw

- A&W Walking & Cycling Action Group (WCAG)
- Adur & Worthing Business Partnership (AWBP)
- Adur & Worthing Councils (AWC)
